
ZETAWET EL

WETTING AGENT / SCOURING AGENT

Product Description:

Zetawet EL is a high-performance anionic wetting agent formulated for effective cleaning, degreasing, and dispersing in textile and industrial processes. It removes sizing, soil particles, and greasy impurities even in heavily contaminated wash baths, enhancing safety and consistency in further processing.

Its dispersing and crystallization-inhibiting properties prevent deposits on goods and machine parts, improve soil suspension in bleaching baths, and optimize rinsing processes. The low-foaming, liquid formulation is pumpable, water-miscible, and ideal for automatic dispensing, ensuring simple handling and reliable performance throughout processing.

Key Benefits:

- 1. Effective Cleaning and Degreasing:** Provides excellent cleaning, degreasing, and dispersing effects.
- 2. Removes Contaminants:** Efficiently eliminates sizing, soil particles, and oily or greasy impurities, even in highly contaminated wash baths, enhancing safety and reproducibility for subsequent processing.
- 3. Dispersing and Anti-Crystallization:** Offers dispersing properties, inhibits crystallization, and maintains a threshold effect.
- 4. Prevents Deposits:** Avoids buildup on goods and machine parts, promotes soil suspension in bleaching baths, and improves rinsing processes, even at high dilutions.
- 5. Good Wetting Properties:** Ensures smooth and trouble-free operation of goods.
- 6. Stable in Various Conditions:** Exhibits strong stability in both alkaline and acidic environments, suitable for diverse applications and reducing the need for extensive inventory.
- 7. Low-Foaming:** Low-foaming formulation without added antifoams; maintains low foaming throughout processing.
- 8. High Stability in Application:** Ensures no separation risk in machines with vigorous liquor circulation, maintaining stable application liquors.
- 9. User-Friendly Liquid Formulation:** Liquid and pumpable, miscible with water, and easy to handle.
- 10. Compatible with Automatic Dispensing:** Designed for compatibility with automatic dispensing systems, simplifying handling and application.
